

SMAC-SERIES

Piezo acoustic components are more and more used in small portable equipment and as a critical alerting device. Reliability must be very high in the most difficult environmental circumstances, such as extreme and varying temperatures, vibrations, shocks, dust conditions, humid environment etc. The SMAC-25 buzzer, manufactured with over 30 years of experience in the field of piezo acoustic technology, is a very stable buzzer with a lifetime of more than 1000 hours in continuous use. In these small dimensions, the SMAC-25 is actually the best available piezo alarm for life supporting systems.

MODELS ON REOUEST

The SMAC series is available, on special request, with the following protection:

Wash tabs

A wash tab is glued on the sound-emitting hole of the buzzer avoiding water penetration into the cavity.

To order this option: add WASH TAB to the model number of the SMAC series.

Acryl coating

Models containing a protective acryl coated membrane are recommended for aggressive, humid or smoggy environment.

To order this option: add MC to the model number of the SMAC series.

PACKAGING

The SMAC-25 buzzers are packed on a polystyrene board (245 L x 245 W) and sold in boxes with dimensions of 250 L x 250 W x 125 H.
